MEMORANDUM FOR: Director of Logistics

FROM: Chief
Printing & Photography Division

STAT

SUBJECT: Printing Support to Other Federal Agencies

1. As discussed previously, I believe it is in our best interest to support other Federal Agencies' printing requirements when the following criteria are met:

- a. The requesting Agency provides a clear statement that the Government Printing Office is unable to satisfy the requirement
- b. The product is essential to effectuating the requesting Agency's mission
- c. The product supports a national level requirement
- d. There is agreement that the requested support is subordinated to this Agency's printing priorities

The attached correspondence, between the Office of the United States Trade Representative and CIA, is a good example of this process.

2. So long as senior Agency management provides the necessary backing in those instances when a customer attempts to take advantage by missing agreed upon deadlines, I do not foresee any major problem. The DDA provided such support on the Department of State Counter-Memorial by calling his counterpart at the Department and insisting that State make the necessary effort to meet our production schedules.
